DETAILED ACTION

This is in response to amendment filed on 9/9/04 in which claims 1-30 are pending. The applicant's amendments have been fully considered therefore this case is in condition for allowance.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior arts of record fail to anticipate or render obvious the following recited features: a selector responsive to 'said phase signal for conditioning the resample filter in response to said phase signal, said conditioned resample filter being responsive to said one of more data signals for generating one or more re-sampled data signals at the second location wherein the re-sampled data signals accurately represent the original data signals without significantly burdening the communication channel with synchronization data as recited in claims 1 and 16.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
